Subject: Re: SARC personal attacks

Hi Tom -

Several of us have spoken to Jim about his emails and ardently requested that he cease sending out anything else and allow this process to unfold. I can't say that he's going to comply with these requests, but we'll do our best to try to keep our side calm and working through this. I'm really sorry this has devolved into such a contentious debate!

Best regards-
Robin

Thanks for your response. I separately sent a response to Laura Hendricks explaining that individuals may send such emails despite the intent of Ecology and the Committee participants - and asking for focus on the tasks at hand, as you elegantly describe below. Thanks.
