(local govt. or agency)

JOINT AQUATIC RESOURCES PERMIT APPLICATION FORM (JARPA)

(for use in Washington State)

this completed JARPA application form and the (Fish Habitat Enhancement JARPA Addition) to your local Government Planning Department and Washington Department of Fish & Wildlife Area Habitat Biologist on the same day.							
NOTE: LOCAL GOVERNMENTS – You must submit any comments on these projects to WDFW within 15 working days.							
Based on the instructions provided, I am sending copies of this application to the following: (check all that apply)							
☐ Local Government for shoreline: X Substantial Development ☐ Conditional Use ☐ Variance ☐ Exemption ☐ Revision							
☐Floodplain Management							
☐ Washington Department of Fish and Wildlife for HPA (Submit 3 copies to WDFW Region)							
☐ Washington Department of Ecology for 401 Water Quality Certification (to Regional Office-Federal Permit Unit)							
☐ Washington Department of Natural Resources for Aquatic Reso		<u>tion</u>					
☐ Cops of Engineers for: ☐ Section 404 ☐ Coast Guard for: ☐ General Bridge Act Permit	□ Corps of Engineers for: □ Section 404 □ Section 10 permit □ Coast Guard for: □ General Bridge Act Permit □ Private Aids to Navigation (for non-bridge projects) INTY						
For Department of Transportation projects only: This project w	ill be designed to meet conditions	of the most entreet 1/2-1					
Ecology/Department of Transportation Water Quality Implemen	nting Agreement						
PROJECT TITLE: Programmatic Review of Geoduck Farming in	Thurston County	A116 1 0 2006					
	•	5.67					
PROJECT DESCRIPTION: Intertidal Geoduck Farming in Thurston	F1	DEVELOPMENT SERVICES					
SECTION A - Use for all permits covered by this application. Be sure to ALSO complete Section C (Signature Block) for all permit applications.							
1. APPLICANT - Thurston County Geoduck Growers							
MAILING ADDRESS							
120 State Avenue, #142, Olympia, Washington 98501							
WORK PHONE E-MAIL ADDRESS AL		FAX#					
	0-426-6178	360-379-5694					
If an agent is acting for the applicant during the permit process, complete #2. Be sure agent signs Section C (Signature Block) for all permit applications							
2. AUTHORIZED AGENT	applications						
Diane Cooper, Taylor Shellfish Farms							
MAILING ADDRESS

Market and the second							

6. Describe (a) the current use of the property, (b) structures existing on the property, and (c) existing environmental conditions. Have you completed any portion of the proposed activity on this property? [X] YES NO For any portion of the proposed activity already completed on this property, indicate month and year of completion.
This is an application for a programmatic review of geoduck farming to take place on tidelands located in Thurston County that have not had long-term historical aquaculture use prior to Spring 2006.
Is the property agricultural land? ☐ YES ☒ NO Are you a USDA program participant? ☐ YES ☒ NO
7a. Describe the proposed work that needs aquatic permits: Complete plans and specifications should be provided for all work waterward of the ordinary high water mark or line, including types of equipment to be used. If applying for a shoreline permit, describe all work within and beyond 200 feet of the ordinary high water mark. If you have provided attached materials to describe your project, you still must summarize the proposed work here. Attach a separate sheet if additional space is needed.
This is an application for a programmatic review of geoduck farming in Thurston County. See attachment "Geoduck Farming Fact Sheet and Overview" for detail.
PREPARATION OF DRAWINGS: See sample drawings and guidance for completing the drawings. ONE SET OF ORIGINAL OR GOOD QUALITY REPRODUCIBLE DRAWINGS MUST BE ATTACHED. NOTE: Applicants are encouraged to submit photographs of the project site, but these DO NOT substitute for drawings. THE CORPS OF ENGINEERS AND COAST GUARD REQUIRE DRAWINGS ON 8-1/2 X 11 INCH SHEETS. LARGER DRAWINGS MAY BE REQUIRED BY OTHER AGENCIES.
7b. Describe the purpose of the proposed work and why you want or need to perform it at the site. Please explain any specific needs that have influenced the design.
The purpose of the project is to continue geoduck farming in Thurston County. Shellfish aquaculture has been a historical use (100+ years) in Thurston County and Washington State and is an activity supported by the State's Growth Management and Shoreline Management Acts, as well as, the Thurston County's Comprehensive Plan and Shoreline Master Program.
7c. Describe the potential impacts to characteristic uses of the water body. These uses may include fish and aquatic life, water quality, water supply, recreation and aesthetics. Identify proposed actions to avoid, minimize, and mitigate detrimental impacts and provide proper protection of fish and aquatic life. Identify which guidance documents you have used. Attach a separate sheet if additional space is needed.
See attached "Programmatic Biological Evaluation of Potential Impacts of Intertidal Geoduck Culture Facilities to Endangered Species and Essential Fish Habitat" dated October 27, 2004, and Washington State Geoduck Growers' Environmental Codes of Practice.
Culture Facilities to Endangered Species and Essential Fish Habitat" dated October 27, 2004, and Washington State Geoduck Growers' Environmental Codes of Practice. 7d. For in water construction work, will your project be in compliance with the State of Washington water quality standards for turbidity
Culture Facilities to Endangered Species and Essential Fish Habitat" dated October 27, 2004, and Washington State Geoduck Growers' Environmental Codes of Practice. 7d.
